6. Specify **PEAK WEEK OF EMPLOYMENT** for each classification. **Peak week** is the calendar week during which you had the greatest number of workers in a given classification working on the project. Peak weeks may vary from classification to classification. [Peak week is explained on page 9 of the Regulations.]
7. Indicate the **HOURLY RATE OF PAY** (base rate + fringe benefits, if any) for each classification of worker. [Fringe benefits are explained on page 8 of the Regulations.]
 - Report **ONLY** wages paid to workers who use the tools of a trade or are laborers on the project site.
 - Do not average wages.
 - Do not give a pay range.
 - Do not report premium pay or overtime pay. *Use only straight time pay.*
 - Do not report wages paid to apprentices, trainees or helpers who are paid less than laborers or mechanics.
 - Do not report extra hourly wages (premium pay) paid to working foremen for their supervisory duties. List working foremen using their mechanic classification and mechanic (not foreman) pay rate.
8. Indicate the **NUMBER OF EMPLOYEES** paid at each particular rate. If you pay different rates within a classification, list each rate separately with the number of workers paid at that rate.
9. Completed reports must be **RECEIVED** by the Department of Labor (Office of Labor Law Enforcement) or **POSTMARKED** no later than **FEBRUARY 8, 2016**, in order to be used in determining prevailing wage rates.
